

FOR IMMEDIATE RELEASE

## **Beware of fraudulent representations by Impero Solutions Limited**

**Montréal, May 18, 2021** – The Autorité des marchés financiers (AMF) cautions Québec consumers about the fraudulent representations made by Impero Solutions Limited.

On the website [www.impero.solutions](http://www.impero.solutions), Impero Solutions Limited purports to be a “leading global investment company that manages multiple asset classes.” The website also states that Impero Solutions Limited was incorporated in Canada and “operates following the rules and laws of Canada.” An address in Montréal (Québec, Canada) is indicated as the location of its head office.

The AMF wishes to clarify that Impero Solutions Limited is not registered with the AMF.

The AMF urges Québec consumers to be very cautious when thinking about investing with companies that solicit them on-line. There is limited recourse against such companies and their executives when they operate outside Canada, which is often the case.

The AMF recommends that Québec consumers perform the following checks and steps before investing through an individual or firm that solicits them:

- Check the [Register of firms and individuals authorized to practise](#) or contact the [AMF Information Centre](#) to find out whether the individual or firm involved is duly registered with the AMF
- Call the firm or individual at the telephone number appearing in the Register to find out whether the offer that has been made is valid
- Never share personal information or make any payment before performing these checks

The Autorité des marchés financiers is the regulatory and oversight body for Québec's financial sector.
