2. RATINGS

The Notes to be issued have not been rated.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

4. REASONS FOR THE OFFER AND USE OF PROCEEDS

7. **PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**

(i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT**
(*Structured Notes only*)

The value of the Notes, the payment of a Coupon amount on a relevant Interest payment date to a Noteholder and the payment of a redemption amount to a Noteholder on the maturity date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of one or several underlying instrument(s) within the basket. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of one or several underlying instrument(s) within the basket is higher than or equal to a predefined barrier performance.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

The investor bears the risk of total or partial loss of the amount invested at redemption of the Notes on the maturity date or the event the Notes is sold by the investor before that date.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

Principais riscos específicos do garante :

Devido ao papel da Société Générale como garante e contraparte das operações de cobertura do Emitente, os investidores estão essencialmente expostos ao risco de crédito da Société Générale e não têm qualquer recurso contra o Emitente em caso de incumprimento do Emitente.

QUAIS SÃO OS PRINCIPAIS RISCOS ESPECÍFICOS DOS VALORES MOBILIÁRIOS?

O investidor suporta o risco de perda total ou parcial do montante investido, no reembolso das *Notes* na data de maturidade ou no caso de as *Notes* serem vendidas pelo investidor antes dessa data.

Certas circunstâncias excecionais poderão ter um efeito negativo na liquidez do produto. O investidor poderá não ser capaz de vender o produto tão facilmente ou poderá ter de o vender a um preço que resulte numa perda total ou parcial do montante investido.

O valor de mercado das *Notes* depende da evolução dos parâmetros de mercado no momento da saída (nível de preço do(s) Subjacente(s), taxas de juro, volatilidade e spreads de crédito) e pode, portanto, resultar num risco de perda total ou parcial do montante inicialmente investido.

Os eventos não relacionados com o(s) Subjacente(s) (por exemplo, alterações na lei, incluindo lei fiscal, força maior, número de valores mobiliários em circulação) podem levar ao reembolso antecipado das *Notes* e, portanto, à perda total ou parcial do montante investido.

Os eventos que afetem o(s) Subjacente(s) ou transações de cobertura podem conduzir a ajustamentos, desindexação, substituição do(s) Subjacente(s), ou e conseqüentemente a perdas no montante investido, incluindo no caso de proteção do capital.

Se a moeda das principais atividades do investidor for diferente da moeda do produto, o investidor está exposto ao risco cambial, especialmente no caso de controlos cambiais, o que pode reduzir o montante investido.
