

2021 Results & Operational Update

March 16 2022

Future ___by Nature

The information contained herein (“Information”) relates to GreenVolt - Energias Renováveis, S.A. (“GreenVolt”) and its subsidiaries (together, the “Group”) and has been prepared using GreenVolt’s information or extracted from sources deemed credible and reliable. The Information does not purport to be comprehensive and has not been verified by an external auditor or expert and is not guaranteed as to accuracy or completeness.

This document has been prepared by GreenVolt solely for informational purposes and use at the presentation to be made on this date and, together with any other materials, documents and information used or distributed to investors in the context of this presentation, does not constitute or form part of and should not be construed as, an offer (public or private) to sell or issue or the solicitation of an offer (public or private) to buy or acquire securities of the Company or any of its affiliates or subsidiaries in any jurisdiction or an inducement to enter into investment activity in any jurisdiction and you should not rely upon it or use it to form the basis for any decision, contract, commitment or action whatsoever, with respect to any proposed transaction or otherwise.

By attending the meeting where this presentation is made, or by reading the presentation slides, you acknowledge and agree to be bound by the limitations and restrictions herein set forth.

This presentation may not be distributed to the press or to any other person in any jurisdiction, and may not be reproduced in any form, in whole or in part for any other purpose without the express and prior consent in writing of the Company.

Any decision to invest in any securities of the Company or any of its affiliates or subsidiaries in any offering (public or private) should be made solely on the basis of the information to be contained in the relevant prospectus, key investor information or final offering memorandum provided to the investors and to be published in due course in relation to any such offering and/or public information on the Company or any of its affiliates or subsidiaries available in the market.

Matters discussed in this presentation may constitute forward-looking statements. Forward-looking statements are statements other than in respect of historical facts. The words “believe,” “expect,” “anticipate,” “intends,” “estimate,” “will,” “may”, “continue,” “should” and similar expressions usually identify forward-looking statements. Forward-looking statements include statements regarding: objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; energy demand and supply; developments of the Company’s markets; the impact of legal and regulatory initiatives; and the strength of the Company’s competitors. The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management’s examination of historical operating trends, data contained in the Company’s records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Important factors that may lead to significant differences between the actual results and the statements of expectations about future events or results include the company’s business strategy, financial strategy, national and international economic conditions, technology, legal and regulatory conditions, public service industry developments, cost of raw materials, financial market conditions, uncertainty of the results of future operations, plans, objectives, expectations and intentions, among others. Such risks, uncertainties, contingencies and other important factors could cause the actual results, performance or achievements of the Company or industry results to differ materially from those results expressed or implied in this presentation by such forward-looking statements. The information, opinions and forward-looking statements contained in this presentation speak only as at the date of this presentation and are subject to change without notice unless required by applicable law.

The Company and its respective directors, representatives, employees and/or advisors do not intend to, and expressly disclaim any duty, undertaking or obligation to, make or disseminate any supplement, amendment, update or revision to any of the information, opinions or forward-looking statements contained in this presentation to reflect any change in events, conditions or circumstances.

2021 Results Overview

01 4Q21 in numbers

Highlights

Strong financial performance in 4Q21 reflecting the continuous execution of GreenVolt's strategy

Revenues

€58.1m

+177%

Recurring EBITDA ¹⁾

€27.7m

+257%

Adjusted Net Income ²⁾

€3.6m

+172% ³⁾

Energy Exported

226 GWh

+51%

Net Capacity ⁴⁾

142 MW

+42%

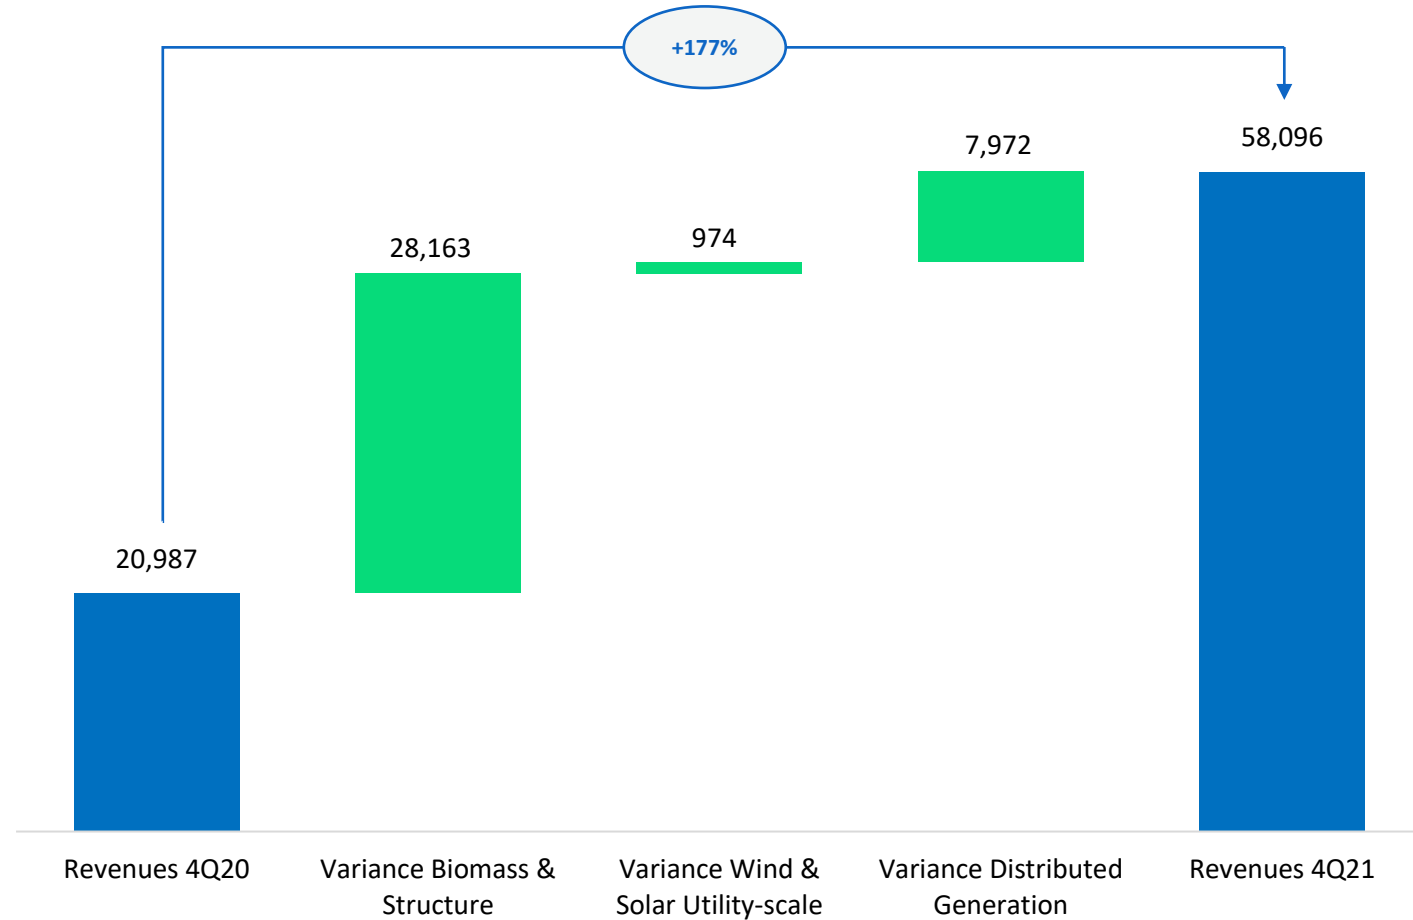

1) EBITDA excluding transaction costs (€0,6m); 2) Net Income attributable to GreenVolt excluding transaction costs and respective tax impact; 3) The 4Q20 Net income excludes the non-recurring reversal of impairment losses (€6.3m); 4) As per respective licenses

01 4Q21: Revenues evolution

Highlights

Revenues evolution was mainly impacted by organic improvements and inorganic acquisitions such as TGP waste wood plant in the UK

€ thousands

01 4Q21: EBITDA evolution

Highlights

The higher profitability achieved in the Biomass business unit was the main driver for the positive EBITDA evolution

01 FY21 in numbers

Highlights

Pro forma recurring EBITDA 2021 (full year consolidation of all business units) of €75.0m

1) EBITDA excluding transaction costs (€5,0m); 2) Net Income excluding transaction costs and respective tax impact; 3) The 2020 Net income excludes the non-recurring reversal of impairment losses (€6.3m); 4) Pro forma figures include the full year consolidation of TGP, V-Ridium, Profit Energy and Perfecta Energia

01 FY21: Revenues evolution

Highlights

The FY21 Revenues increased by €51.4m (+57%) compared to FY20, mainly impacted by GreenVolt’s inorganic growth

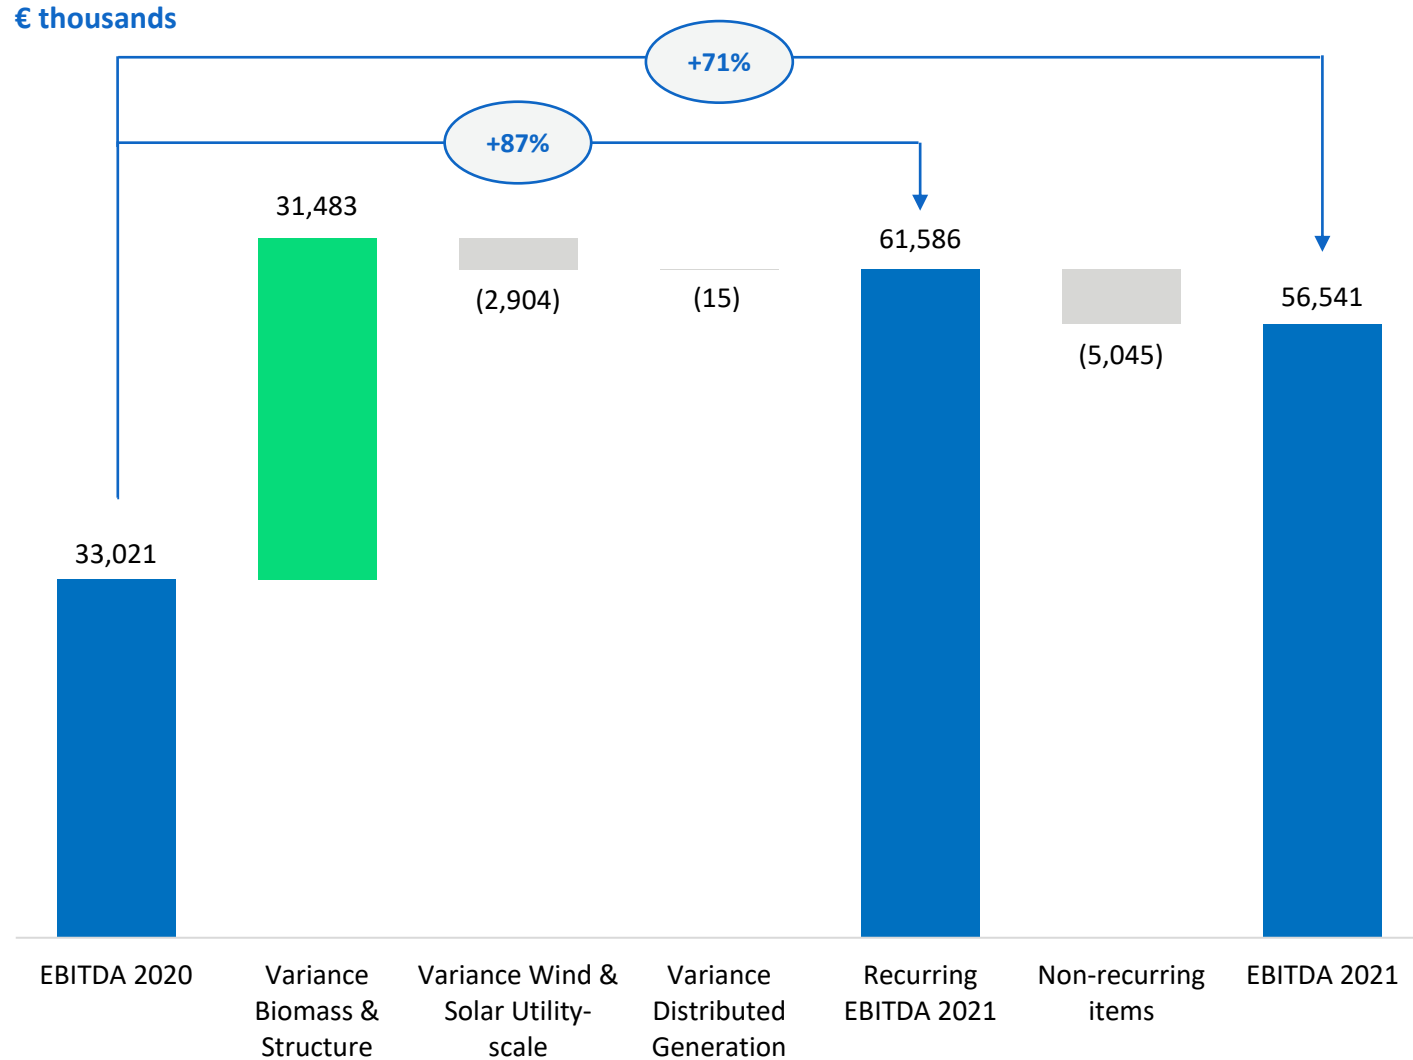

€ thousands

01 FY21: EBITDA evolution

Highlights

The strong performance of the Biomass business unit was the main driver for the positive EBITDA evolution in 2021

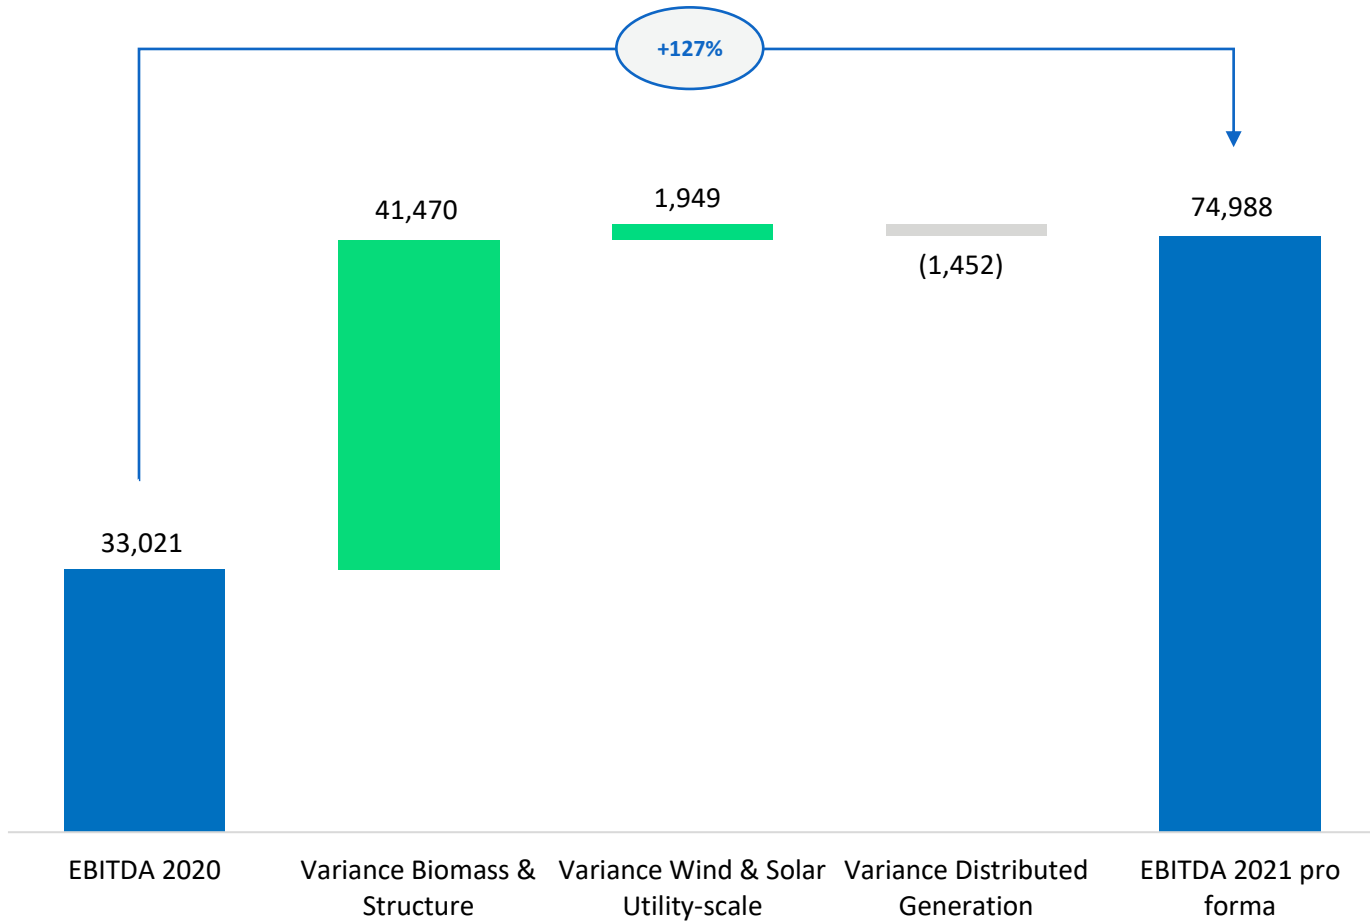

01 FY21: Recurring EBITDA pro forma

Highlights

Including the full year consolidation of TGP, V-Ridium, Profit Energy and Perfecta Energia, the EBITDA would have amounted to €75.0m (+127% vs 2020)

€ thousands

Ambitious —by Nature

02

Business Evolution

02 Biomass & Structure

The Biomass business unit is composed by **six biomass plants** in two geographies (**Portugal and UK**)

873 MWh

Energy Exported 2021

+19%

142 MW

Capacity 2021 ¹⁾

+42%

Net Capacity ¹⁾

5 Biomass plants
100 MW

1 Biomass plants
42 MW

Availability ²⁾

Energy Exported

Implicit Energy Price ⁴⁾

1) As per respective licenses; 2) Availability = Operational Hours / Total available hours in the period (Pro forma figures of FY21, considering full-year for TGP); 3) Figures adjusted by the planned outage (more than five months) of Rodão Biomass Plant; 4) Only includes the 2H21 of TGP plant

The evolution of revenues and EBITDA was positively impacted by the consolidation of TGP in UK

2021

**€131.3m**

Revenues

**€64.5m**EBITDA ¹⁾

Main highlights

1

Strong electricity output from TGP plant (+12% vs 2020) reflecting GreenVolt management expertise, highlighted by November and December output levels reaching record highs.

2

Enhanced operational capabilities, notably by the continuous improvement and digitalisation of its biomass plants.

3

The Biomass output in Portugal was partially affected by the planned outage in Ródão Biomass Plant to reinforce its operational efficiency. Since September, all biomass plants in Portugal returned to full operation.

1) EBITDA excluding the transaction costs

02

Wind & Solar Utility-scale

5.8 GW

Pipeline

10

Geographies

**Reinforcement of pipeline through partnerships and new co-development agreements:
4.0 GW in advanced stage o/w 2.0 GW RtB or COD until 2023**

5.8 GW pipeline in Europe with ~4.0 GW at U/C, RTB or advanced stage

Country	Details
Poland	<p>Mainly own developments and selective co-development opportunities</p> <p>U/C, RTB or advanced stage:</p> <ul style="list-style-type: none"> ~1.2 GW 60% Solar PV, 40% Wind <p>Storage:</p> <ul style="list-style-type: none"> ~1.4 GW
Greece	<p>2 premium co-development partners complemented by own development</p> <p>U/C, RTB or advanced stage:</p> <ul style="list-style-type: none"> ~691 MW 75% Solar PV, 25% Wind
Italy	<p>Mainly own developments and selective co-development opportunities</p> <p>At Advanced stage:</p> <ul style="list-style-type: none"> ~301 MW 100% Solar PV
Portugal	<p>U/C, RTB or advanced stage:</p> <ul style="list-style-type: none"> ~109 MW 50% of ~240 MWs (Infraventus)
Bulgaria	<p>U/C, RTB or advanced stage:</p> <ul style="list-style-type: none"> ~50 MW
Germany	<p>Acquisition of 35% of MaxSolar (not included in the pipeline count):</p> <ul style="list-style-type: none"> ~500 MW reaching RtB until 2023
Serbia	<p>At Intermediate stage:</p> <ul style="list-style-type: none"> ~458 MW

Pipeline at IPO

GreenVolt is now a European major development platform – a unique positioning in the renewables value chain

2021

€1.8m

Revenues

(€2.9m)

EBITDA ¹⁾

Main highlights

- 1 **Reinforcement of GreenVolt's presence** in markets where it already operated (Greece, Italy, Poland and Portugal), with a preference for smaller projects with **quick time-to-market, secured interconnection** and in **co-development**.
- 2 Acquisition of 51% of KSME, with **1.4 GW of secured storage interconnection** in Poland and a 50% Joint-Venture allowing access to **243 MW** of Solar PV pipeline promoted by Infraventus.
- 3 **Expansion of our footprint** across Europe, namely through an **early-mover strategy** in Serbia and an **innovative strategy** in Germany, through MaxSolar. Additionally, GreenVolt entered in the **USA** based on a **low capital-intensive** and **opportunistic strategy**.
- 4 Overall, there are **~170 MW Wind and Solar PV projects under construction across Europe**.

1) EBITDA excluding the transaction costs

02 Distributed Generation

70%
Stake in Profit Energy

42%
Stake in Perfecta Energia ¹⁾

Profit Energy is specialised in the development of self-consumption projects to the industrial and commercial segment (B2B) in **Portugal** and **Perfecta Energia** to the residential customers (B2C) in **Spain**

  PROFIT ENERGY		
2020	2021	2022 YTD
9.0 MWp installed	18.5 MWp installed	31.5 MWp secured in 2021 17.2 MWp signed in 2022

  Perfecta energía		
2020	2021	2022 YTD
1.1 MWp installed 361 Projects	4.5 MWp installed 1,491 Projects	2.5 MWp secured in 2021

1) GreenVolt has the option to acquire the company's entire share capital in 2024.

The Distributed Generation unit has been consolidating its position in this growing and strategic sector

2021

€8.3m

Revenues

(€0.01m)

EBITDA ¹⁾

Main highlights

- 1 This business unit is in a **ramp-up phase**, focused on **increasing its operational capacity** with the aim of **gaining market share and profitability**.
- 2 Moreover, GreenVolt is pursuing **organic growth opportunities** in the **Energy Communities segment** namely in Portugal, as well as in the **B2B segment in Spain**, through Perfecta Energia.
- 3 During 2021, this business unit presented an **increment in the capacity of installation and project portfolio already secured** for the next year (backlog).
- 4 Only **four months of Profit Energy** and **two months of Perfecta Energia** were consolidated in GreenVolt's results since the acquisitions took place at the end of **August** and **October**, respectively.

1) EBITDA excluding the transaction costs

Efficient —by Nature

03

Strategic enablers

Strategic enabler #1

Conservative financial policy

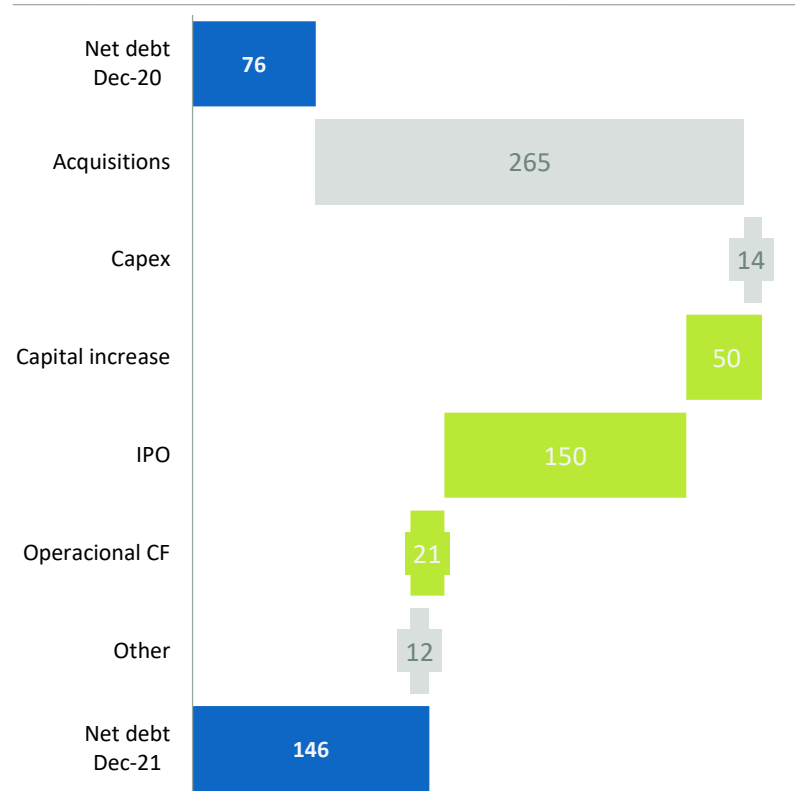

2.37x
Net debt ¹⁾ /
EBITDA ²⁾

1.95x
Net debt ¹⁾ /
EBITDA ²⁾ pro
forma³⁾

Net Debt amounts to €146m as of December 2021

Net Debt (EUR'm)

Outstanding debt as of Dec-21 (EUR'm)

Interest rate exposure (%)

1) Net Debt = Bonds (nominal value) + Bank Loans (nominal value) + Other Loans (nominal value) – Cash and Equivalents; 2) EBITDA excludes transaction costs; 3) EBITDA pro forma considers the consolidation of all acquired subsidiaries since January 2021

Strategic enabler #1

Strong balance sheet

4.6

Average life (years)

✓ €205m raised post IPO

✓ Sound liquidity fostering swiftness and flexibility in decision making

✓ Cash and unused credit lines amounting to €479m

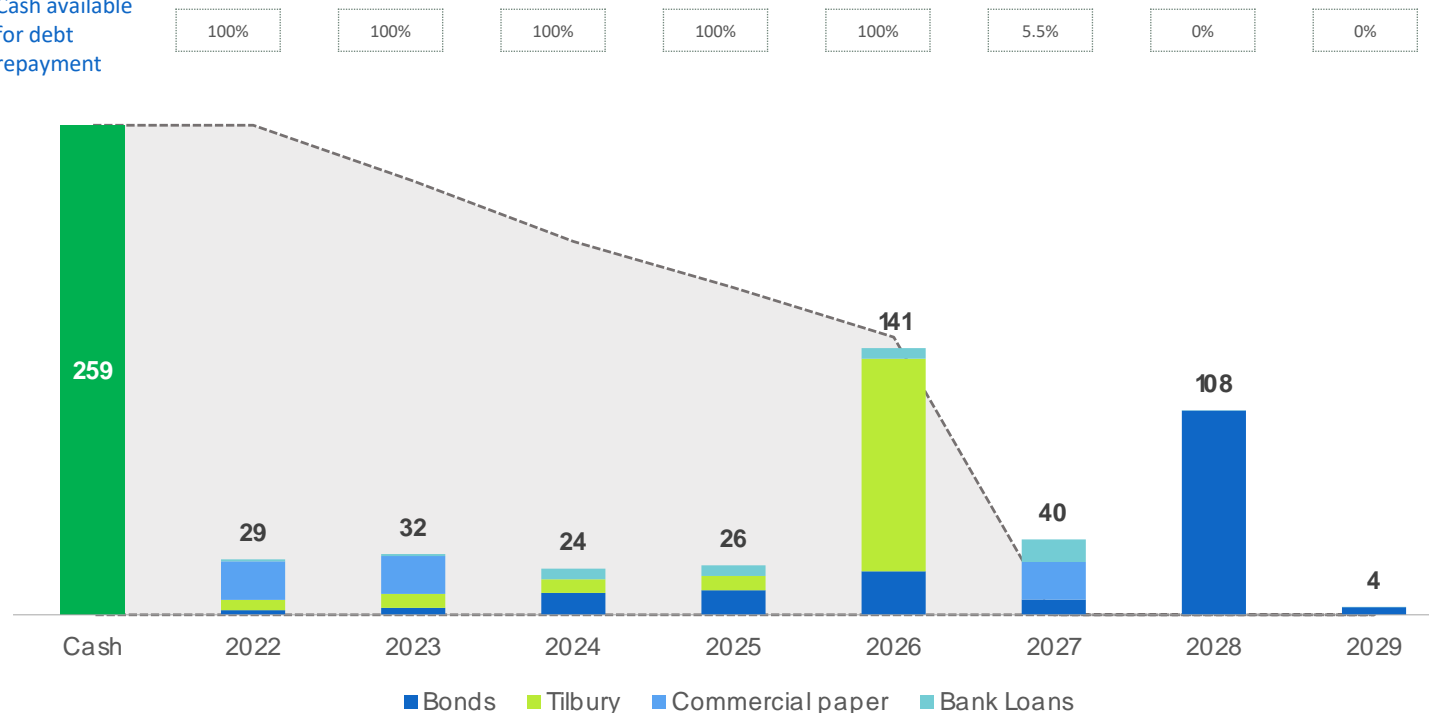

37%

Green Bonds

Resilient and well-balanced financial structure with low liquidity risk, a strong cash position, supporting future growth

Debt maturity profile as of Dec-21 (EUR'm)

Cash available for debt repayment

Strategic enabler #2 Top-tier people with unique local knowledge

Aligned with a strong HR strategy, we have been able to attract top talent around Europe

Today GreenVolt counts with more than 200 people from 10 different nationalities and our talent is distributed across 5 geographies

Our human resources structure is characterised as youth, fostering our energy and innovation

04

Key takeaways

It has been an exciting journey...

... and the ground is being laid to move the story forward

Key takeaways

Enhanced energy transition focus, underpinning well defined GreenVolt's strategy

Key enablers well identified supporting GreenVolt's sustainable growth story

1	Recent geopolitical events reinforce ongoing energy transition and the need for renewables in the energy sector	
2	Well-defined GreenVolt strategy, 100% focused on renewables, based on 3 key strategic pillars:	
	Biomass	<ul style="list-style-type: none"> ✓ Sole use of residual biomass ✓ Operational efficiency improvement and management excellence of GreenVolt's biomass plants under operation
	Development	<ul style="list-style-type: none"> ✓ (Co-)development of utility-scale Wind and Solar PV development strengthened by unique partnerships with key local stakeholders ✓ Development of smaller scale renewable projects, with a faster time-to-market ✓ Asset rotation strategy, with at least 98 MWs to be farmed down in 2022
DG	<ul style="list-style-type: none"> ✓ Organic and inorganic growth in Iberia and other European markets both on Distributed Generation and on Energy Communities 	
3	Strong balance sheet, conservative financial policy and top tier people will enable GreenVolt to achieve its strategy over the near-term
