EDPR announces a MoU with ENGIE, to create a 50:50 joint-venture for offshore wind

Madrid, May 21st 2019: EDP Renováveis, S.A. ("EDPR") announces the signing of a strategic Memorandum of Understanding (MoU), to create a co-controlled 50/50 joint-venture (JV) in fixed and floating offshore wind. The new entity will be the exclusive vehicle of investment of EDPR and ENGIE for offshore wind opportunities worldwide and will become a global top-5 player in the field, bringing together the industrial expertise and development capacity of both companies.

Under the terms of the MoU, EDPR and ENGIE, will combine their offshore wind assets and project pipeline in the newly-created JV, starting with a total of 1.5 GW\(^1\) under construction and 4.0 GW\(^2\) under development, with the target of reaching 5 to 7 GW\(^3\) of projects in operation or construction and 5 to 10 GW\(^3\) under advanced development by 2025.

For EDPR and ENGIE, offshore wind energy is becoming an essential part of the global energy transition, leading to the market’s rapid growth and increased competitiveness. The companies believe that creating an entity with greater scale and a fully dedicated team, with global business development reach and strong power purchase agreement origination capabilities, will allow them to grow their asset base more rapidly and to operate more efficiently assuring a stable partnership.

The JV will primarily target markets in Europe, the United States and selected geographies in Asia, where most of the growth is expected to come from. The JV’s ambition is to be self-financed and the projects that will be developed will respect the investment criteria of both companies.

This ambitious alliance follows EDPR and ENGIE’s successful five-year cooperation as consortium partners in the Dieppe Le Tréport and Yeu Noirmoutier fixed offshore wind projects in France and Moray East and Moray West in the United States.

---

1 Corresponding to 100% of projects capacity: Moray East (950 MW), Wind Float Atlantic (25 MW), SeaMade (487 MW)
2 Corresponding to 100% of projects capacity: Moray West (800-950 MW), Tréport & Noirmoutier (992 MW), Leucate (24 MW), Mayflower (1,500 MW), B&C Wind (400 MW), California (100-150 MW)
3 Corresponding to 100% of project capacity
Kingdom. EDPR and ENGIE are also partners in 2 floating offshore wind projects in France and Portugal and in the Dunkerque offshore wind tender currently ongoing in France.

The execution of the project is subject to the respective social, corporate, legal, regulatory and contractual approval processes. The JV is expected to be operational by the end of 2019.

For further information please consider the presentation attached.

EDP Renováveis, S.A.
London, May 21st 2019

António Mexia
EDP CEO

Isabelle Kocher
ENGIE CEO
EDP and ENGIE share a common vision that renewables, in particular offshore wind, will play a key role in the global energy transition.

- Strong collaboration track-record since 2013 in offshore wind
- Offshore market potential significantly overlaps with companies’ footprints
Offshore wind is a young yet mature technology with significant potential to be captured in coming years.

An increasingly mature and competitive technology...

EDP and ENGIE’s current markets show strong potential for offshore and there are also other promising markets already identified.

- **8 GW** to **+22 GW** in current markets, including the United Kingdom and Portugal, where EDP and ENGIE are already present.

- **+c.40 GW** of new offshore capacity to be deployed until 2030 in current markets where ENGIE or EDP are already present...

- **+c.34 GW** in new markets, with significant upside potential to be captured in new markets where the Parties intend to develop their presence.

5-7 GW

5-10 GW

Under advanced development

2025E

(1) Estimate at inception of the JV, after the different approvals will have been received
Together, the Parties combine their complementary competences to enhance a leadership position in the offshore wind market

Combination of the right set of skills in renewables and a successful track record...

- Energy management and offtake
- Project management
- Business development
- Energy and risk assessment
- Procurement

... and a 50:50 control structure with the right governance

- CEO, COO and Chairman: 3-year mandates
- Initial CEO proposed by EDPR and COO & Chairman by ENGIE
- At the end of the mandate, ENGIE will propose new CEO and EDPR will propose new COO and Chairman

Key success factors

- Large scale of operations
- Global reach and agility of business development teams
- PPA origination capabilities and energy management

(1) After the different approvals will have been received

Dedicated team and joint-operations expected to be fully implemented by the end of 2019
Creating a global offshore leader
Initial assets and projects to be contributed by the Parties to the Joint-Venture

By attending the meeting where this presentation is made, or by reading the presentation slides, you acknowledge and agree to be bound by the following limitations and restrictions. Therefore, this presentation may not be distributed to the press or to any other person in any jurisdiction, and may not be reproduced in any form, in whole or in part for any other purpose without the express and prior consent in writing of the Companies.

The information contained in this presentation has not been independently verified by any of the Companies' advisors or auditors. No representation, warranty or undertaking, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein. Neither the Companies nor any of their affiliates, subsidiaries, directors, representatives, employees and/or advisors shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation.

This presentation and all materials, documents and information used therein or distributed to investors in the context of this presentation do not constitute or form part of and should not be construed as, an offer (public or private) to sell or issue or the solicitation of an offer (public or private) to buy or acquire securities of the Companies or any of their affiliates or subsidiaries in any jurisdiction or an inducement to enter into investment activity in any jurisdiction. Neither this presentation nor any materials, documents and information used therein or distributed to investors in the context of this presentation or any part thereof, nor the fact of its distribution, shall form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever and may not be used in the future in connection with any offer (public or private) in relation to securities issued by the Companies. Any decision to purchase any securities in any offering should be made solely on the basis of the information to be contained in the relevant prospectus or final offering memorandum to be published in due course in relation to any such offering.

Neither this presentation nor any copy of it, nor the information contained herein, in whole or in part, may be taken or transmitted into, or distributed, directly or indirectly to the United States. Any failure to comply with this restriction may constitute a violation of U.S. securities laws. This presentation does not constitute and should not be construed as an offer to sell or the solicitation of an offer to buy securities in the United States. No securities of the Companies have been registered under U.S. securities laws, and unless so registered may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of U.S. securities laws and applicable state securities laws.

This presentation is made to and directed only at persons (i) who are outside the United Kingdom, (ii) having professional experience in matters relating to investments who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005 (the "Order") or (iii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "Relevant Persons"). This presentation must not be acted or relied on by persons who are not Relevant Persons.

Matters discussed in this presentation may constitute forward-looking statements. Forward-looking statements are statements other than in respect of historical facts. The words "believe," "expect," "anticipate," "intends," "estimate," "will," "may," "continue," "should" and similar expressions usually identify forward-looking statements. Forward-looking statements include statements regarding: objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; energy demand and supply; developments of the Companies markets; the impact of legal and regulatory initiatives; and the strength of the Companies competitors. The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management’s examination of historical operating trends, data contained in the Companies’ records and other data available from third parties. Although the Companies believe that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Important factors that may lead to significant differences between the actual results and the statements of expectations about future events or results include the companies’ business strategy, financial strategy, national and international economic conditions, technology, legal and regulatory conditions, public service industry developments, hydrological conditions, cost of raw materials, financial market conditions, uncertainty of the results of future operations, plans, objectives, expectations and intentions, among others. Such risks, uncertainties, contingencies and other important factors could cause the actual results, performance or achievements of the Companies or industry results to differ materially from those results expressed or implied in this presentation by such forward-looking statements.

The information, opinions and forward-looking statements contained in this presentation speak only as at the date of this presentation, and are subject to change without notice unless required by applicable law. The Companies and its respective directors, representatives, employees and/or advisors do not intend to, and expressly disclaim any duty, undertaking or obligation to, make or disseminate any supplement, amendment, update or revision to any of the information, opinions or forward-looking statements contained in this presentation to reflect any change in events, conditions or circumstances.
